

Project title: Recultivation of sludge lagoon at Moravany by means of solidification/stabilization technology		
Key words: sludge lagoon, recultivation, reclamation, solidification/stabilization		
Country / Location: Slovakia/Moravany	Implementation period: 01/2017 - 12/2017	
Client: AVE CZ Pražská 1321 Praha 10	Value of the contract: 483,337 EUR	
Contact Person: Mr. Roman Jerie Tel: Tel.: +420 602 208 563 E-mail: roman.jerie@ave.cz	Value of the services provided by DEKONTA: 250,000 EUR	
Funding agency, if different from the Client:	Number of staff-months provided by DEKONTA: 20 staff-months	
Name of associated consultants / subcontractors, if	DEKONTA's staff and functions performed: Ondřej Urban-Project Manager Jan Vanek - Project Supervisor	
Narrative description of the Project: Goal of the project is to recultivate former sludge lagoon site at Moravany (Slovakia) that was used in the past as dump site of drilling sludges contaminated by oil hydrocarbons by Nafta Co. Purpose of the recultivation was to close the lagoon site in line with Slovak/EU standards. Dekonta implemented first phase of recultivation that included sludge solidification/stabilization.		
Type of the services provided by DEKONTA: -Sludge solidification & stabilisation		
Signature: Jan Vaněk, MBA Head of Environmental Projects Division and Member of the Board of Directors
